Does Long Distance Running Protect or Promote Lower Extremity Osteoarthritis?

Secili De Stefano, PT, DPT, OCS
Scott Euype, PT, DPT, OCS

I. Introduction / Objectives

II. Incidence and Prevalence of Running Injuries
A. Injuries Factors
   1. Age
   2. Gender
   3. Running Volume
b. Specific Injuries

III. Osteoarthritis
A. Incidence and Prevalence
B. Risk Factors
C. Articular Cartilage Anatomy
D. Pathogenesis
   1. Phase of Degradation

IV. Osteoarthritis Related to Former Activity

V. Osteoarthritis Related to Running
A. Animal Studies
B. Human Studies
C. Diagnostic Imaging
D. Lower Extremity
E. Lumbopelvic Girdle
VI. Running Specifics and Osteoarthritis

A. Running Volume

B. Running Biomechanics

C. Preventative Strategies

VII. Conclusions
