Title: Science Meets Practice: Rotator Cuff Tears, Surgical Repairs, and Rehabilitation

Speakers: George J. Davies, DPT, Kevin Wilk, DPT, Stephen Burkhart, MD, Todd Ellenbecker, DPT

Date of Lecture: Friday, February 17, 2017, 8:00-10:00 am

Disclosures:
George J. Davies: Associate Editor-Sports Health

Objectives of the Lecture:

The course participants will:

- Discriminate the current best research in physical therapy treatment of rotator cuff tears and surgical repairs
- Explain the current best evidence for the current state of the art of surgery for these patients
- Compare and contrast the accelerated versus decelerated rehabilitation interventions for patients with rotator cuff surgical repairs

Basic Reference List:

"This is a preliminary handout. Full handout will be posted on SPTS website on the CSM handout page on the day of the lecture."
